## 06H01 ELIJA ALEXANDER HOLLIMAN

The Cornelous Holliman, 05H01, ( Cornelious Holiman, and other spellings ) that married Elizabeth Plyler (CA) 1813 in Lancaster County, South Carolina, had 5 children that are known to us. The children are as follows:

06H01 Elijah Alexander Holliman

06H02 Uriah H. Holliman

06H03 Joshua C. Holliman

06H04 Mary Holliman

06H05 Sarah Holliman

The 1830 Census does show a fourth male but nothing has been learned about his identity. Our purpose in this study is to convey the facts as we know them. This information we seek to preserve for and intrust to future generations of Hollimans. Therefore, in our continuation of the story of those Hollimans that migrated westward we must include the story of ..... ELIJAH ALEXANDER HOLLIMAN.

First, it is important to note the usual variation in spelling. There is some evidence that Elijah changed the spelling of our surname. We will therefore "adopt" this spelling variation in the following discussion of Elijah and his descendants.

06H01 ELIJAH ALEXANDER HOLIMAN - b. 1816 Lancaster Co., S.C.
