To Walt Holliman

Walt,

Thanks for the Bryan family materials.

I really don't know what to think. I do see a lot of similarities and feel my gg-grandfather John Wesley Bryan could be the missing son. The things that get my attention are:

- 1. Similarity between Hopkins Co. and Hopkinsville, and the birth dates (1813 vs. 1811).
- 2. The counties where Richard lived and worked, and where Peggy moved after his death. JWB was in every one of them KY, Barbour Co., Washington Co., Choctaw Co. and Marengo Co. JWB's wife Mary Jane McCarty (daughter of Jacob McCarty) was from Marengo county. I also have a deed for land JWB bought in Montgomery Co. in 1837.
- 3. Richard's early death. I was surprised at JWB's age on an 1830 land document I have where he purchased 80 acres of land in Barbour county. He would have only been 17 if born in 1813.
- 4. One of JWB's children was named Richard.
- 5. The Wesley book listed in Richard's possessions. Could be the source of JWB's name.

The thing that doesn't fit. My dad has an old cardboard picture of JWB. On the back is handwritten, John Wesley Bryan, Hopkins Co., Kentucky, 1813. I don't know who wrote it, but I have to think it was JWB or someone who knew the information to be true. It was not done by a researcher. The picture was handed down by family. The only explanation is that JWB himself may not have known.

I am sending you a genealogy book I have written, "The Bryans of Leake County". It has all the information I have received from family or found on my own. Some of it is inaccurate and I am fixing that as I go. For example, JWB's first wife died between the 1856 (date of last child from MJM) and 1860. Information I had from family members was that his second wife's name was Lou Wright and that she had five children of her own - Albert, Aldora, Erdell and Rufus. However, the 1860 census shows JWB and an Irena M.J. Bryan (I don't know her last name) were married within the year. None of her children, if any, were listed in the census. Then in the 1870 census, four children born since the 1860 census were listed - Susan, Richard, Sarah and Ariel. I will change this in my book.

One thing I was interested in from your materials is the discourse on the Morgan Bryan family. I am very familiar with this family and have researched it fairly well. I tried to come from that direction and find JWB. Incidentally, I did find two JWB's from that family. One was from Morgan\James\Henry\JWB (born 1808).

However, this JWB had a different spouse. Another JWB was from the Morgan\Thomas\Morgan H.\JWB (born abt. 1811-1813). I have not found this JWB's spouse's name yet.

Your materials show Rebecca Bryan as a daughter of Morgan Bryan and Martha Strode. She is however, a daughter of their oldest son, Joseph Bryan. I notice the Mormons have this mistake in their materials also. However, the Draper papers and other more authentic documents (such as the records from Samuel Bryan - son of Morgan given by his wife in application for pension) have it as I have stated. This information is in the series of articles published in the Lexington Herald 1912, on the Bryan family. The Morgan Bryan family is of Quaker heritage and first settled near Reading PA. There are several versions of how they got there. Your version is another. All versions I have seen start with Bryan, king of all Ireland, dethroned by the English, escaped to Denmark, married a Dane, a later generation, William Smith Bryan, returned to reclaim heritage, got kicked out again, returned to Denmark and his son, Morgan and two brothers came to America, met Martha Strode on the way over and married her shortly after getting to PA. From most verrsions, the Morgan Bryan family moved from PA to VA along with other Quaker families. Then, they moved to the Yadkin Valley of NC. Two years after moving there, Squire Boone moved his family there and were the nearest neighbors. Daniel and his brother Edward married Bryan girls, and as you report, William married Mary Boone.

My folks, like yours used Bryan / Bryant at different times. The early deed records of JWB in AL show his name as Bryan. In the legal records of the will of Jacob McCarty, the name is Bryan. In the census records of JWB, 1850 shows Bryon; 1860 Bryant, and 1870 Bryant. My grandfather used Bryant. One of my uncles used Bryant. The others used Bryan.

I am grateful for your information and would appreciate any further revelations. I will also stay in touch if I learn anything. Thanks.

Jerry K. Bryan

Dear Ms. Peddie:

I recently met Sue Mortenson from Pittsburg at a genealogical seminar and she informed me that you have written a book on the Holliman-Hollyman family.

The original Hollyman book left me hanging in mid-air since I am descended from James Grantson Holliman served as a Pvt. in the Revolution from Johnston Co., NC, and migrated to Lancaster Co., SC about 1793 according to his Revolutionary War Pension Application. I suspect his father wasa Samuel Holliman who lived in Johnston County, NC, but was on the line when Dobbs County was formed. He would have died in Dobbs County, for which there seem to be few records.

As you know, George Holliman was never able to connect the North Carolina Hollimans to Christopher and his bunch in VA, and I have enjoyed the same problem. Perhaps you have talked with Dr. Charles Holliman of Raleigh, who helped with the first book, and who probably knows as much as anyone, but feels he is old enough that he no longer needs to cite sources.

If you ever need information on James of NC/SC, or any of his descendants, most of whom came to Alabama about 1832, let me know.

Meanwhile, if you feel your book would be of help to me, please send ordering information.

Your cousin,

Walt Holliman

24 October 1994

Mrs. Elva C. Nally 141 Fairview Dr. NW Martinsville, VA 26155

Dear Mrs. Nally:

I understand that you are descended from a John Curtis who was born in Charleston, SC 1790, and wondered if any of your research might have revealed the parents of my ancestor, John Alexander Curtis. According to census records in Lowndes Co., MS, he was born ca. 1826 in SC, and his brother, Dr. James H. Curtis was born about 1819.

I have never found any records in SC which were of any value in establishing their parentage. Dr. James moved to MS by 1840, and John was there before 1850. They were partners in the Columbus Hotel, also known as the Curtis Hotel, and John served as a private in the Civil War, dying soon after and leaving a year old daughter, who was my Grandmother. The SC census have been of little help, but Charleston seems to be the most likely birthplace.

If you have any information which might be helpful, it would be greatly appreciated. I will gladly reimburse any cost for copies, etc.

Thanks,

Walt Holliman

### CHRISTMAS NEWS - 1994

May I first offer my apologies to all who received cards last with a message too small to read or  $n_Q$  card at all - consider it a wrinkle in Christmas chaos never to be repeated.

Our year has been filled with many treats, surprises and great times with many friends. Janet's brother and wife started our year with a New Year's visit and trip to Victoria to see the night lights of Butchart Gardens and the Tacoma Zoo - quite a spectacle!

With both of us temporarily in retirement we set off for the Washington coast in the spring to camp and bike. We found we had rushed the season and headed home early after attempts to brave the wind and cold but did get in some kite flying on the beach. Our unstructured time allowed us many trips nearby to gather oysters and clams. We explored the Canadian and northern Cascade Mountains after a brief stop to help Jim's high school friends celebrate their 40th wedding anniversary.

July blessed us with another grandaughter, Carley Rochelle and Janet went to Phoenix for two weeks to help Jennifer and family while Jim kept the homefires burning in cool Washington. He continued to send out quantities of resumes and letters. His efforts were rewarded in August as Promotional Services Director with a modular housing company, Timberland Homes. He does some travelling to their Washington offices, sets up trade shows, creates brochures, and generally taps all his experience and creative talents -a real challenge and joy.

He won first in his age category at the Senior Track and Field meet and stays mean and lean. He's still playing his clarinet and collects and restores antique pump organs. If you were an observation viewer of Northern Exposures on November 29 you would have notice Jim voting at the Sons of the Tundra board meeting - Wow! is that Jim versatile or what! His favorite part of being a part of the scene was the great cigars he got to smoke - of course, it made it difficult to see the wonderful board room they built just for that scene through the thick smoke.

Janet is content to be 'retired' while the job market remains so poor and kepts her fingers in Friends of the Library, Taree Homeowner Association commissioner, tutoring foreign students for the Literacy Council, and sewing up a storm for grandchildren and the Kingston Yacht Club bazaars as well as serving as the yacht club treasure. (No, we still don't have a boat but we are happy land lubbers and they tolerate us.) Her book group recently hosted a fun mystery dinner party. We resurrected some of Janet's mother's flapper dresses for the occasion. Belonging to a book group really pushes you to improve the quality and quantity of reading things you might never discover - I highly recommend it to all.

A wonderful time with our 20 Thanksgiving guests truly set the stage for a holiday season to be cherished. We wish for you and yours a warm and blessed Christmas and New Year.

#### 1995 NEWS FROM JIM AND JANET (ZUBET

The gifts are all mailed, the festivities planned and now to ket our friends far and wide know we are thinking of them and wishing them a great holiday season. We were able to trim lots of holly from our three trees this year and we were so pleased, only to hear from my sister in Colorado that her fox arrived with bare stems and black leaves - well, the thought was there!

It was only a week ago that the temperature dropped below freezing for the first time this winter but such rains we've had! If we didn't live on a high bank overlooking the Puget Sound area of the Pacific Ocean we'd have water running over our earlobes. We've certainly seen some impressive Navy ships with all the movement going on and Bremerton becoming the major disarming, building and repair area for the Pacific. You never quite believe the size of those aircraft carriers and then you see the fleets of planes on the decks through the binoculars. A recent Navy personnel move had the decks filled with personnel automobiles - sound like a great economy move for a change.

I guess you could say the biggest event for our area has been all the building, the unemployment and our area code change which has gone from 206 to 360. We've enclosed a business cara to remind you to make note.

Janet is thinking about doing another one of those Amtrak trips after everything settles down in January or February. Her destination is uncertain so if any of you would like to travel with her let us know. She's thinking warm climates and three stops in the winter and maybe if she's not too worn then, a spring or fall three-stop trip across the middle of the country before or after things cool off - I don't do heat or mosquitos well! She would fly one direction and take rail the other.

Jim won't be able to take that much vacation until later in 1996 and we're still pondering many plans. December 27, 1995 is our 40th anniversary but we'll wait until much after the holidays calm down to celebrate. Jim has planned a great mini-getaway for Christmas. We will spend Christmas Eve at an elegant bed and breakfast in one of the stately old neighborhoods of Seattle, a gift exchange with our son's in-laws, Christmas Eve service and the magnificant Flentrop organ at St. Mark's Catheral, then more gift exchanges with Jim's relatives and dinner with our son and his wife the next day. Sounds like great party-hopping doesn't it? We'll be well worn out by the end of the day.

We're talking about breaking tradition in 1996 with gifts, ctc. and taking a trip for the holidays. We've talked about it for many years but have never put it together - 1996 may be the year. We always enjoy hearing about your adventures during the year. And, may we end with a special blessing -

Walt- I got God Bless Thy Year Thy coming in, thy going out: Barbara Navidson othy rest, thy travelling about: Aller helieve her married name The rough, the smooth—

is still tacoba). I put it God bless thy year on the bark of tanets card.

Janet & Jim

#### CHRISTMAS 1996

Wherever you are, in balmy breezes or buried in snow, I'm sure you are winding down another eventful year with Christmas merrymaking just like the Zubers are.

Hawaii was on our itinerary this year and we spent two weeks at a wonderful condo in the Makaha valley on Oahu. Typical of two light-

skinned sun warriors, we had a reaction to the sun, but that didn't slow the trips to the Mai Tai bar at the Royal Hawaiian, or a wonderful luau and show at the Polynesian Village. Janet liked it so well she invested in a time share there! If any of you are interested in renting a super two-bedroom condo right on Hawaii's best beach for a family gathering just give Janet a call.

Disneyland isn't just for kids as we proved on our way back. In fact, it's more fun when you aren't stuck in lines for rides that the kids "have to" go on or die. We covered all the action events and studio tour at Universal studios, and no, we didn't get eaten by JAWS, or thrown off the collapsing trestle.

Camping in the Northwest can be challenging on occasion, although always beautiful. Three days at Birch Bay, near Canada, proved that you can survive in a tent during persistent rains, and even enjoy cooking under a rain fly surrounded by hugh cedars, but you'd rather be back home and dry. It was fun just being with our son John and wife Betsy, though. Oh, for the days of the motorhome!

We braved the heat of Phoenix in July to check out retirement communities, and celebrate our youngest grandchild's second birthday. That made two trips to visit daughter Jenny, husband Paul and kids Alicia, Kevin, and Carley. A January trip saw Jim putting up a swing set for the kids, and Janet stripping antique furniture. Busy, busy!

Jim was in Colorado to root at a CU football game in October, and spent a week on the Colorado Western slope with buddies. Janet is going to spend the Christmas holidays visiting family and looking at condos in Colorado. Speak of white Christmases! (The Seattle area had its own pre-Thanksgiving version this year.)

We have our house on the market so who knows where the winds of 1997 may blow us! We wish everyone of you the best of holidays and the coming year. As always, you are in our hearts and thoughts!

Jim and Janet

Hi, Walt—
Hope everything is going well in alabama; good business,
good health, and good times. Janet reminds me occasionally
that we got more rain in alabama them we do in Washington
and its amazing my memory doesn't serve me that way.

Jin's Jour-hour commute each day doesn't seem & slow wo down much in the fun department. We've had a difficult time getting acquainted but have finally met some very nice people. Why, we even road in the big Fauth of July parade! On you stell working on the Navidson genealogy? I hope the notes and addresses Jim sent were of some help. Im Trying & set together a Gell Keunion in Hot Frings, arbanisas, for Jall of 1995. We've never had one but & kenewed acquaintance with a Couple of Cousins last year after 46 years, and that got things started. We knownt been back to the South since we left in 1975. Such pleasant memories we have and still write to some of over friends from Trace Exiscopal. Good to kear from you. Janet & Jone

I don't remember much rain in alabama, and Ithink Washington has more rain than the jungles of Maylaysia. Maybe that's because this year has had more rain than usual and even a 6" snowfall last week. Were not really complaining though; this is a beautiful part of the world with many, many things to do, and we've been very fortunate to have many friends from all over the ebuntary livisit us here. When silvimer cohes and the sun comes to stay for 3 mouths - you can't beat it. Do you get to visit your kids very often? We don't have any contact with our oldest son anymore. He's in a religious group that requires the aleanation of parents. But the other two make up for it John this dufe Betsy are in Seattle, and Jenny & a great mom with 3 kids and a devoted husband, and they live in Phoenix. Well, hope this season is all you anticipate - and more! Jun Hanet
